New Product Update & Parts Information

ECE R10 Approved Vapormatic LED Beacons

Bulletin 1364	UK Yes	Export Yes	Issued 16/06/2017
-------------------------	------------------	----------------------	-----------------------------

NEW ECE R10 Approved LED Warning Beacons

Make sure your beacon is suitable for purpose:

Vapormatic's range of ECE R10 approved LED warning beacons are suitable for highways commuting, field-to-field and off-road vehicle use. Manufactured with a tough, durable plastic body and impact-resistant polycarbonate lens, this new range of beacons are ideal for use with agricultural and plant vehicles, off-road construction equipment and ATV's.

The compact 'boule-type' styling is designed to create a low profile and help minimize overall vehicle height, which is particularly useful with larger agricultural vehicles or sites with overhead obstructions or hazards.

All light beacons feature high intensity LED's with a very low current draw for low power consumption, longer working life and better use of available, stored vehicle battery energy.

VLC6140 – R10 LED 'boule' beacon with magnetic base

Magnetic base mount tested to 70mph (110kph). Compact, low profile "boule" design. IP66 rated with dust and water protection. Dual voltage - can be used on either 12V or 24V vehicles. Supplied with a cigar lighter adaptor with 2.5m cable length. The light flash pattern modes are adjustable using a simple push-button selector from the comfort of the driving cab / vehicle interior.

Features and Benefits:

- 40 high intensity LED's
- Magnet base mount tested to 70mph (110kph)
- Cigar lighter adaptor with push button flash pattern selector
- Black plastic/nylon rubber base, polycarbonate lens
- ECE R10 Approved, CE marked
- IP66 dust & water protection
- DC 12-24V
- Reverse polarity protection
- 3 x flash patterns - 360° rotation, low and high speed strobe
- Operating temperature -30°C to +50°C

70 MPH max
(110 km/h max)

VLC6141 – R10 LED ‘boule’ beacon single bolt surface mount

Single bolt, surface mounted application. Compact, low profile “boule” design. IP66 rated with dust and water protection. Dual voltage - can be used on either 12V or 24V vehicles. Three light flash pattern modes available - 360° rotation, low and high speed strobe.

Features and Benefits:

- 40 high intensity LED’s
- 1 bolt, surface mounting
- Black plastic/nylon rubber base, polycarbonate lens
- ECE R10 Approved, CE marked,
- IP66 dust & water protection
- DC 12-24v
- Reverse polarity protection
- 3 x flash patterns - 360° rotation, low and high speed strobe
- Operating temperature -30°C to +50°C

VLC6142 – R10 LED ‘boule’ beacon with flexi DIN pole mount

ECE R10 approved LED warning beacon with 40 long-life high intensity LED’s. Compact size, flexi DIN pole mount takes seconds to change - simply unscrew the wingnut on the DIN stem and unplug to remove! Compact, low profile “boule” design. IP66 rated with dust and water protection. Dual voltage - can be used on either 12V or 24V vehicles.

Features and Benefits:

- 40 high intensity LED’s
- Short, flexi DIN pole mount & base – simply tilts when meeting an obstruction rather than breaking!
- Black plastic/nylon rubber base, polycarbonate cap
- ECE R10 Approved, CE marked
- IP66 dust & water protection
- DC 12-24v
- Reverse polarity protection
- 3 x flash patterns - 360° rotation, low and high speed strobe
- Operating temperature -30°C to +50°C

VLC6143 – LED beacon with flexi DIN pole mount

Standard size, flexi DIN pole mount takes seconds to change - simply unscrew the wingnut on the DIN stem and unplug to remove! IP66 rated with dust and water protection. Dual voltage - can be used on either 12V or 24V vehicles.

Features and Benefits:

- 60 high intensity LED's
- Long, flexi DIN pole mount & base – simply tilts when meeting an obstruction rather than breaking!
- Black plastic/nylon rubber base, polycarbonate cap
- ECE R10 Approved, CE marked
- IP66 dust & water protection
- DC 12-24v
- Reverse polarity protection
- 3 x flash patterns - 360° rotation, low and high speed strobe
- Operating temperature -30°C to +50°C

VLC6144 – LED beacon with flexi DIN pole mount

Standard size, flexi DIN pole takes seconds to change - simply unscrew the wingnut on the DIN stem and unplug to remove! IP66 rated with dust and water protection. Dual voltage - can be used on either 12V or 24V vehicles.

Features and Benefits:

- 60 high intensity LED's
- Long, flexi DIN pole mount & base – simply tilts when meeting an obstruction rather than breaking!
- Black plastic/nylon rubber base, polycarbonate cap
- ECE R10 Approved, CE marked
- IP66 dust & water protection
- DC 12-24v
- Reverse polarity protection
